8 June 2009

Thank you for your inquiry regarding membership of AMSIG.

Membership is open to any medical practitioner with a significant ongoing interest in musculoskeletal problems as evidenced by a curriculum vitae and indication of present work.

A membership application form is attached and should be sent with *a copy of your CV and sponsorship letter from one current member*. There is a once only application fee of \$200 and currently an annual fee of \$50.

The current membership is not very high, nor is it intended to be very selective. Active membership is required with presentation of cases and papers to the Annual Scientific Meeting.

Members are regularly circularised regarding relevant issues, such as upcoming meetings of interest. A regularly updated list of members and their interests is maintained. At the Annual Scientific Meeting there is a subsidised dinner held at a specially selected venue in the Host City. These are always a highlight facilitating further links amongst the musculoskeletal imaging fraternity.

If you decide not to apply for membership you are still welcome to attend the annual meetings.

Regards
